  ||  ||  ||  | ||   ,---|--- `---.|   ,---||   |
  |`---'`---'`  '  '`---'`---^  `---'`---'`---^`   '
`---'

Running on Apache/2.2.19 (Unix) mod_ssl/2.2.19 OpenSSL/0.9.7a mod_bwlimited/1.4

No firewall detected

Components:
        com_gantry

Version family 1.5.x [1.5.19.Stable-1.5.20.Stable]

Security tips:
=============
Info: Unprotected Administrator directory
Versions affected: All
Files affected: http://www.theartofjoomla.com/administrator
Detail: The default /administrator/ directory is detected. Attackers can bruteforce admini
strator accounts
More info: http://yehg.net/lab/pr0js/view.php/MULTIPLE%20TRICKY%20WAYS%20TO%20PROTECT.pdf

Possible vulnerabilities in core:
=================================

Possible vulnerabilities in components:
=======================================
Possible vulnerability: TinyBrowser Joomla! Component 'folders.php' Local File Include Vul
nerability
Versions affected: Lunarvis TinyBrowser 1.41.6
Detail: The TinyBrowser component for Joomla! is prone to a local file-include vulnerabili
ty because it fails to properly sanitize user-supplied input.An attacker can exploit this
vulnerability to obtain potentially sensitive information and execute arbitrary local scri
pts in the context of the webserver process. This may allow the attacker to compromise the
 application and the computer; other attacks are also possible.
More info: http://www.securityfocus.com/bid/

Possible vulnerability: XStandard Component Directory Traversal Vulnerability
Versions affected: Joomla XStandard
Detail: The XStandard component for Joomla! is prone to a directory-traversal vulnerabilit
y because it fails to sufficiently sanitize user-supplied input data.Exploiting the issue
may allow an attacker to obtain sensitive information that could aid in further attacks.
More info: http://www.securityfocus.com/bid/33143/

Possible vulnerability: Gantry Framework 3.0.10 (Joomla) Blind SQL Injection Exploit
Versions affected: com_gantry
Detail: Gantry Framework 3.0.10 (Joomla) Blind SQL Injection Exploit
More info: http://www.exploit-db.com/exploits/14911/
